

Welcome to Geometry

About this class

I am looking forward to a great year in geometry. I hope that you will enjoy learning about this field of mathematics by exploration, projects, and hands on activities.

Your grade will be calculated using total points. More info to come on grade information.

Expectations

My expectation is that you come to class every day on time willing to work. I am available for help after school and we have a tutoring lab that is available during both lunches should you need to use it.

Information

- Grades will be posted promptly. It is your responsibility to monitor your progress in this class.
- Please email me at angela.beason@cps.k12.ar.us if you ever have any questions or concerns.
- I have plan period 3rd period (10:00-11:00) Feel free to call during that time if you need to speak to me.
- I use an app called Celly to send out reminders and general information to help you and your child have success in this class. To sign up as a parent for text alerts, text @geometryparents to 23559 I will give students their codes in class. I will also send parents emails with a little more detailed information and will use the email address that you gave when updating your contact information this summer. If you would prefer that I use a different email address please let me know.

Supplies

Paper
Pencil
Notebook
*Calculator
*Compass
*Protractor
*graph paper

* I will have these items in class, but you may need them to complete assignments at home

We're on the web!

You can find us at <http://beason.wikispaces.com/2014geometry>

All videos and assignments will be available on this wiki page. Stay tuned for A LOT more information!

About me

This will be my 21st year teaching High School Math and the 12th at Cabot High School. My husband and I will be celebrating our 20th anniversary this year. He is active duty Air Force and we have two children. Christopher will be in 8th grade at Junior High North and Alyson will be in 2nd grade at Eastside .

I grew up in Central Georgia and received my Bachelor's degree in Math Education from Berry College in Rome, Ga. One pretty cool thing about Berry is that it is the largest college campus in the world, covering more than 26,000 acres. Just recently they have had Eagles nesting on campus and my children and I have enjoyed watching

the webcam of the baby eagle this spring. After college I moved back home, began teaching, and working on my Master's Degree which I received from Mercer University in Macon, GA (remember the team that beat Duke in the NCAA tournament last year?) In 2005 I became a National Board Certified Math Teacher and continue to learn more each and every year.

I enjoy spending time with my family. We are very involved with supporting Arkansas Gold Star Families and just recently began displaying the Arkansas Fallen Heroes Memorial around the state (a Gold Star Family is a family who has lost a child while they were serving our country).

This is an exciting year in your child's life and I look forward to being a part of it. It sets the tone for their entire high school experience and I hope that their experience is better than they every dreamed it could be. If you have any questions or concerns at all please do not hesitate to contact me. At the end of the day I want them to know that math is important, but that THEY are the reason that I do this every day. I love what I do and I hope that they know that each and every day.

I am looking forward to a GREAT Year!

Angela Beason

Cabot High School
Mrs. Beason
Room 1131

It's GREAT to be a Cabot Panther!
